# ABOUT **MAG**-PERFORMANCE

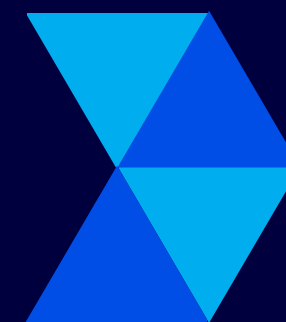

**MAG**-Performance is an International Sim Racing Team, founded in early November 2020 by **Matteo Calestani** and **Augusto Cacciami**.

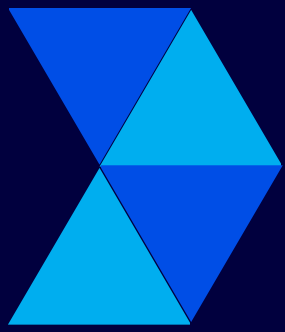

Both are Italian, but they chose to give an international imprint to the team, to engage drivers around the world in order to make it a competitive squad at international level.

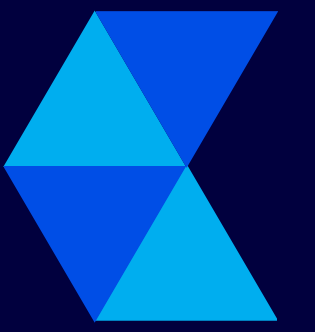

## **Matteo** Calestani

Moreover Matteo Calestani has an important background in real motorsport, having raced in Karting (European-Italian championship), Formula Opel Lotus (now Formula 3), Formula Barber American championship and he transfers his expertise, passion and advice to all the drivers of the Team.

# LINE-UP

The Team aspires to compete in the best splits and championships on the iRacing Simulator.  
The drivers are inspired by two fundamental pillars: Speed & Fairness.

The Team is divided into **3 levels**:

## MAG PRO

Solid experience into a team and strong driving knowledge.

## MAG SENIOR

Consolidated experience into a team and good driving knowledge.

## MAG JUNIOR

Attitude to grow and learn. Focus on the fair-play on & off the track.

The team, thanks to its leadership and the group, gives to its drivers the continuous possibility of growth and work with people committed to the same results.
